

**MS Access Exercise 6**

Open the **abc-manufacturing-company-employees.txt** file and the **abc-manufacturing-company-employees-new.txt** file located at the BDSS website:  
<http://www.newpaltz.edu/~roztockn/dss.htm>

**Create table: ABCEmployees**

Create the field names and their properties as you need them to store the specific data for employees.

Use the appropriate functions to answer the following questions.

1. How many employees in Pennsylvania (PA) receive a salary of \$65,000 or more?

- (a) 17
- (b) 18
- (c) 19
- (d) 20
- (e) None of the above

2. How many employees in Ohio (OH) and New York (NY) receive a salary of \$85,000 or more?

- (a) 17
- (b) 18
- (c) 19
- (d) 20
- (e) None of the above
